

March 21 – 2022

Initial Conversation was about the training data and how the output should be?

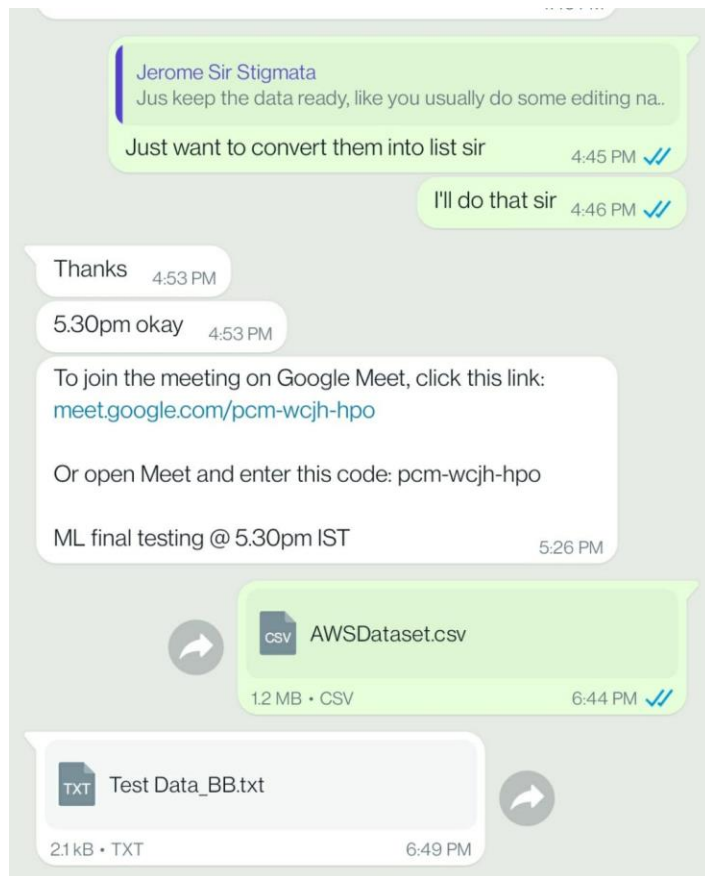

March 28 – 2022

A first Meet regarding the status of the Project.

March 30 – 2022

After corrections, the second meet is scheduled on March-30 2022

April 1 – 2022

First set of results has been sent and issues has been recognized.

	precision	recall	f1-score	support
Invalid Data	0.78	1.00	0.88	7
Valid Data	0.00	0.00	0.00	2
accuracy			0.78	9
macro avg	0.39	0.50	0.44	9
weighted avg	0.60	0.78	0.68	9

All of them are invalid data sir 2:20 PM ✓✓

bXyTQCB6INFNNDaxGrX/WfnYwE4/7HCF4tzt78Di
o2J9vY8OMAwUgeD/TLZh10VU7iuRPS4OH2c1TdA3 2:21 PM ✓✓

These two are also showing as invalid data 2:21 PM ✓✓

Since in the training data we don 2:22 PM ✓✓

*We don't have this kind of input 2:22 PM ✓✓

Is it Okay or need to do something else sir? 2:23 PM ✓✓

Thinking 2:23 PM

	precision	recall	f1-score	support
Invalid Data	0.78	1.00	0.88	7
Valid Data	0.00	0.00	0.00	2
accuracy			0.78	9

Name: Data, dtype: object
['Invalid' 'Invalid' 'Invalid' 'Invalid' 'Invalid' 'Invalid' 'Invalid' 'Valid']

2:44 PM ✓✓

April 4 – 2022

Second set of Results and testing the Model with the sample test data.

April 7 – 2022

Regarding the output

Kindly explore how you can bring the outcome ? Like if we get 5 inputs (2 valid and 3 invalid), the algo should process and provide the exacts inputs with corres label

10:13 PM

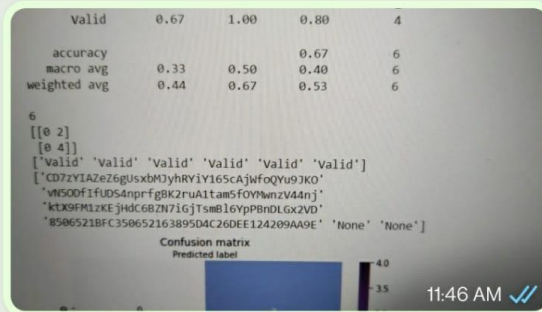

March 31, 2022

Jerome Sir Stigmata

Kindly explore how you can bring the outcome ? Like if we get 5 inputs (2 valid and 3 invalid), the algo should process and provide the exacts inputs with corres label

6:14 AM ✓✓

You

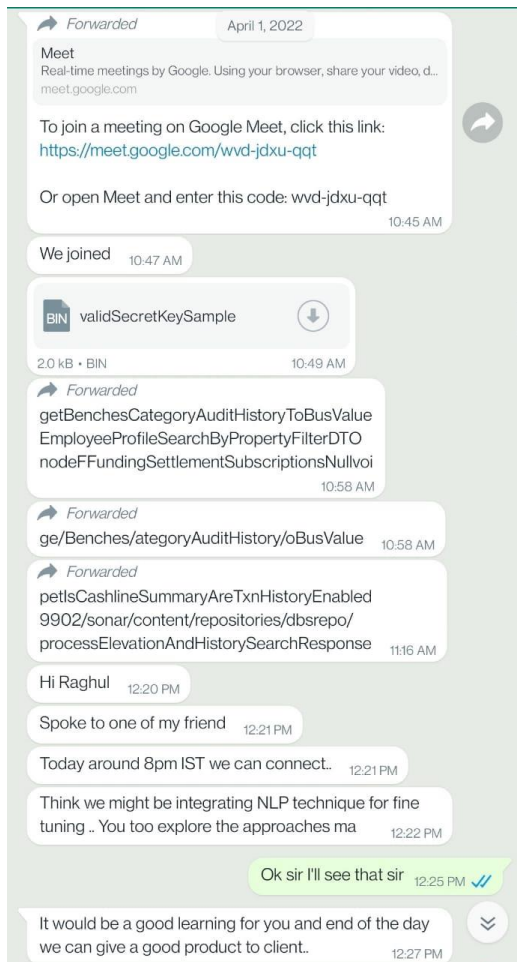

Photo

Why is none coming as valid data ma ?

1:48 PM

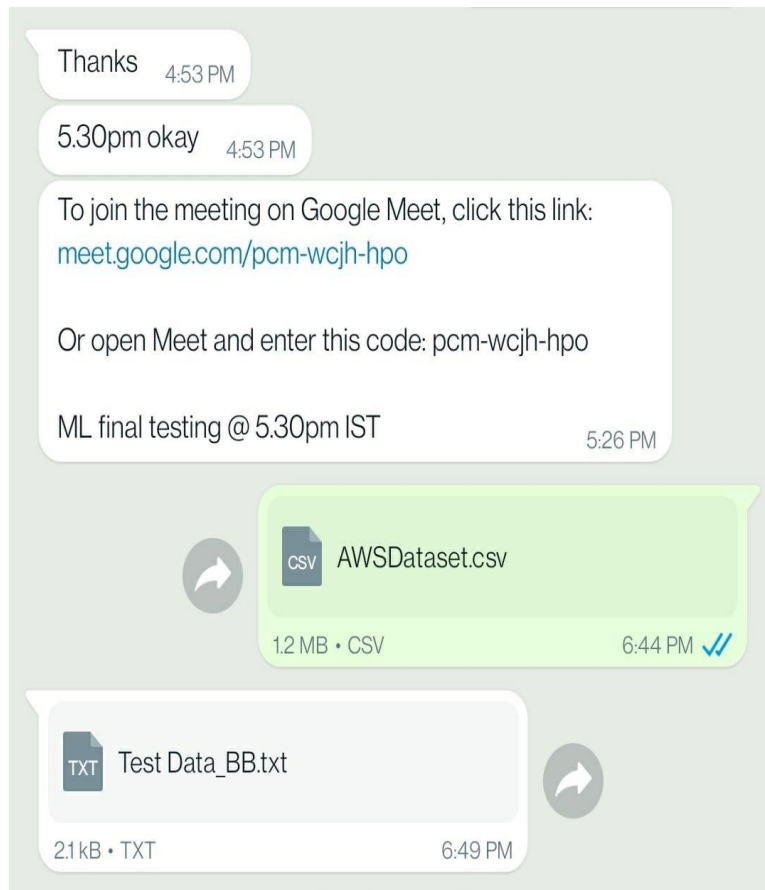

April 12-2022

Next meet regarding the status of the Model.

April 19 –2022

Final Testing of the Model.

April 22-2022

Final Model has been sent.

Hi, Anything I should be doing at our end ? 11:42 AM

Jerome Sir Stigmata
Hi, Anything I should be doing at our end ?

Sir just give me the test data 3:15 PM ✓✓

Let me work and see 3:15 PM ✓✓

Call you in a while 3:41 PM
